

# Boeing VIP 737

Swift Air has redesigned the interior of this aircraft to seat 68 and included several club seating areas, easy access to electrical outlets for portable electronics, and all first class interior with leg room commonly seen on smaller private aircraft.

## Introducing VIP 737s from Swift Air!

Swift Air operates a fleet of VIP Boeing 737 airlines. The 68-seat first class configuration with several club seating arrangements affords for spacious and luxurious cabin space to ensure a comfortable flight. Our cabins provide easy access to power outlets for your laptops and other electronic devices to make your flight more personal and enjoyable.

The Swift VIP 737 experience extends far beyond the aircraft. Our first class trained and qualified flight and cabin crews are at your service to provide you with the attention to detail that defines excellence. We pride ourselves on the professionalism and courteousness of our cabin attendants and their ability to provide for the needs of our passengers. In addition to our best in class service we also offer specialized catering to accommodate the requests of our passengers and ensure a culinary experience that exceeds expectations.

The B737 is a two-engine aircraft designed primarily for short to medium range operation. This aircraft is configured with two passenger cabins. These are the following aircraft specifications:

Minimum Cabin Crew:	2 Flight Attendants
Length:	109'7"
Wingspan:	94'9"
Fuel Capacity:	5,311 gallons
Crusing Speed:	509 mph
Passenger Seat Capacity:	68 First Class Seats
Range:	3,000 nautical miles
